1. The Examiner has carefully considered Applicant's Response of 4/28/05. The Examiner fails to find support in the disclosure as originally filed for the Amendment of 4/28/05, and thus makes a new matter rejection which is accordingly made Final.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 6 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, the limitation to the substrate being part of the composite structure with the open-cell foam is a coating is not disclosed.

4. Claims 1-5 and 7-48 are allowable.
